

Bridgewater Township Project Meeting
County of Rice, State of Minnesota
February 21, 2018
Official Minutes

Call to order – 1:00 pm

Pledge of Allegiance

Roll Call: Kathleen Doran Norton, Gary Ebling, Glen Castore, Peter Tiede, Adam Parker, Frances Boehning

- A review of the current and past land use of the Central pond location was held.
- Adam Parker reviewed the requirements for wetland classification and the rationale behind the method of permitting that was done.
- A delineation of the area will need to be completed to determine if the township believes this to be a wetland.
- Adam Parker will complete a delineation and application to be sent to Justin Fuchs.
- The meeting with SWCD will be held on Friday, March 2 in Faribault. The Board of Supervisors, Adam Parker, and Peter Tiede will be in attendance.
- Adam Parker offered to speak with Todd Phiepho regarding what the DNR is looking for. Gary Ebling requested that Adam email the Board with the DNR's response.
- Kathleen Doran-Norton suggested that we have a plan for remediation if the area is proven to be a wetland. Adam Parker noted that Spring Creek is a public waterway.
- Kathleen Doran-Norton suggested that we present why we believe the wetland is smaller than what SWCD is suggesting based on Adam's delineation.
- Peter Tiede suggested that we have remediation options available in the event it is proven that the area is indeed a wetland.
- The Application that Adam is completing for SWCD will include the delineation.
- Peter Tiede would like Adam Parker to have remediation plans available in a range of sizes to show remediation on-site.
- It was noted that the T.E.P meeting on March 2 will focus on the requests from SWCD and not any issues with the DNR.
- A request was made to Adam Parker to provide the delineation, options for remediation on site, and the completed application to the Board by the Wednesday prior to the meeting.
